

**GETINGE 400HC AND 500HC SERIES
STEAM STERILIZERS**

VISIBLY BETTER BY DESIGN

Quality construction. Outstanding performance. Powerful control. Simplified operation. GETINGE 400HC/500HC Series Steam Sterilizers deliver an unmatched combination of sterility assurance, cycle flexibility, real-time information access and advanced operator control. Just what you expect from the company that helped pioneer steam sterilization technology.

The difference that's plain to see

One look will tell you, 400HC/500HC Steam Sterilizers are designed with busy healthcare providers in mind. Featuring a large display screen and highly intuitive controls, the sterilizers' sleek, clean, modern designs help ensure long-term aesthetic appeal for every work environment. 400HC/500HC Steam Sterilizers are ideal for new construction or replacing older models, offering increased chamber loading capacities within the same wall openings and footprints of your current units.

Reliability you can trust

The highest quality, stainless steel chambers and doors provide superior corrosion resistance and structural integrity, backed by Getinge's 15-year chamber warranty. What's more, our commitment to quality and uninterrupted performance is reflected in an industry-best, one year, parts and labor guarantee.

BEST OF CLASS OPERATOR INTERFACE

Large 5.7" VGA color display and intuitive, flexible, soft-key controls facilitate fast on-screen modifications of cycle parameters and quick reference of cycle values – even at a distance. Operator interface panel is mounted above door or can be remotely wall mounted.

- Display screen choices include bar graph, plot graph and details
- Universal symbols for easy-to-understand operation
- Real-time continuous display of cycle values with cycle countdown
- Password-protected supervisory and service-level security
- Comprehensive, process fault messaging
- 60 second, power-outage protection

■ Intuitive controls with visible time remaining in cycle are displayed

■ Burn guard and heat-resistant door handle provides an extra measure of safety

■ Multiple shelf adjustments

■ Greater chamber capacities

■ Hinged front panel facilitates servicing and provides emergency access to chamber, steam generator and controls

■ Optional 30 kW steam generator performs "just like house steam" at all voltages

■ Optional foot pedal for hands-free operation

Options tailored to your needs

- Manual or power-door operation
- Cabinet-mounted or recessed
- Single or double doors
- House steam supply or integral electric boiler
- Automatic boiler blowdown

Permanent cycle documentation

Quick loading, thermal, paper recorder documents transition points, pressure and temperature, start time, date, sterilizer and cycle number.

Wide selection of standard and configurable cycles

Up to 22 factory-recommended cycles handle virtually every steam sterilization application with confidence:

Choice of loading equipment:

Racks and adjustable shelves

Load car and transfer carriage

GETINGE T-DOC™ ASSET MANAGEMENT SYSTEM

There's a lot more to track in the surgical and sterile processing chain than just instruments, and only the T-DOC Asset Management System gives you the power and flexibility to document it all. T-DOC tirelessly manages sterilizer cycles, instrument locations, and staff productivity in ways that other systems cannot. Embrace the power of expertise; put Getinge to work for you. See us on the Web at: www.getingeusa.com.

COMPLETE SOLUTIONS FOR INFECTION CONTROL

Getinge is the world's leading provider of solutions for effective cleaning, disinfection and sterilization in the healthcare and life science sectors. We are dedicated to helping our customers provide better care at a lower cost. We do this by offering well-thought-through and customized solutions. This means that we are with our customers all the way from architectural planning and education to traceability and support – with complete solutions, long-term commitment and global presence. Getinge – Always with you.
