**GETINGE 46-SERIES
WASHER-DISINFECTOR**

Always with you

46-SERIES ADVANTAGES

- Compact footprint with large capacity
 - 26" x 73" x 27" (W x H x D)
 - Large 7.2 cu. ft. load chamber
 - Holds up to eight (8) instrument trays
- User-friendly controls
 - Six most common cycles can be run with single program button
 - Process status lights make it easy to verify cycle progress
- Wide range of accessories
 - Various carts are available for instruments, MIS lumens, containers, glassware, and anesthesia
 - One unit can handle a variety of items

Main Features	Benefits
Compact overall footprint	Minimal space requirements. Unit can be located near point of use.
Large 7.2 cu. ft. load chamber	Excellent efficiency, processing capability of up to eight full-size instrument trays per load.
Fold-down door for easy loading	Saves space and money by eliminating need for load carts/trolleys. Ergonomically friendly.
Short cycle times, as low as 28 minutes with drying*	High throughput potential ... less instrument inventory needed, can support one to four operating rooms.
Intermediate-level, thermal disinfection without special chemicals	Instruments are safe to handle and for use on patients. Proven disinfection methodology. Lower cost. Better for environment.
High volume/low pressure cleaning (160 gallons per minute)	Superior cleaning and less potential for damage to instruments due to instrument shift during processing.
Glass doors	Allows visualization of cleaning process. Better sound and heat insulation.
Optimum chamber size	Offers a more efficient use of water and detergent than comparable, larger washers.

* Short cycle times are based on optimum utility conditions. Actual cycle times may vary depending on individual situations.
